Designed by the Renzo Piano Building Workshop, Le Renzo embodies the essence of a fragmented vessel, drawing inspiration from its surroundings. The interplay of light, air, and water shapes a structure that reflects Monaco's vibrant connection to Mediterranean life. Positioned at the westernmost edge of the district, Le Renzo offers a collection of residences overlooking a lively marina and retail plaza. Located at the beginning of the promenade, it provides both residents and visitors with a seamless link to the Mediterranean spirit.
