and reading / office areas and viewing points all positioned around a central, relaxing focal gazebo. The terrace also benefits from a secluded summer kitchen.

2 lifts with direct access within the building including an extremely useful service lift onto the street. The large, yet cozy kitchen offering ample storage space, a continuous boiling hot water tap and dishwasher. Washer and dryer positioned on rear terrace for easy access and space.

The apartment boasts an ongoing rented parking space in the adjacent building Saint Andre only a few seconds walk across the famous Boulevard de Suisse. This fully furnished, air-conditioned, state of the art insulated, all newly fitted and finished apartment, is the first luxury apartment brought to the market by a world-renowned designer / developer Guy Phoenix.

Guy with his team, who have been delivering some of the finest homes on the planet for decades and winning multiple awards in the process. Rose De France the first of its style in Monaco.

The Rose de France building was selected for its well-established location on the iconic Boulevard de Suisse, within the desirable Carre D'Or district. Just a few minutes stroll to several famous Monaco hotels, designer shops and Casino Square. The developer insists residences not only must be finished to an exceptional standard, but benefit from out of this world views and be most crucially in the right location. Rose de France ticks all the boxes. It's vital that everything works seamlessly and is luxury on every level. Whether that be the climate control, the mood lighting or the warm floor when you step out of the shower first thing in the morning yet with a controlled cool ambience throughout.

This state of the art property has been completely gutted, back to raw concrete and redesigned and rebuilt sparing no expense on the fit out. The fittings include the latest in acoustic insulation technology everywhere ensuring all rooms enjoy silence and privacy. The owner has specifically chosen to use green recyclable environmentally friendly materials in our efforts to preserve our planet, regardless of cost. These benefits in low running costs will now be passed onto the new owner.

The renovation included the existing floors being removed and the installation of a new screed and acoustic cement board beneath the extra large calibrated marble flooring.

An air-cooling and a heating climate control system that includes commercial air-conditioning, in an easy to operate installation, is present throughout. Everything from the electrical installation to the plumbing, insulation, walls and floors are all completely brand new. The latest technology used to deliver an operating system the occupant can be comfortable with and quickly become familiar with. Operating the residence has been left simple. Scenes can be set to suit the eventual owner regards lighting / heating etc. The windows will be fitted with black out Lutron blinds working in harmony to ensure total privacy and a good nights' sleep.

All electronics can be controlled from a single switch after the scenes programmed to suit the individual, controlled from any switch within or from a smart phone. Open your blinds, switch on your lighting from your phone from the other side of the world. Fast WIFI - up to 450 mb on both floors for uninterrupted TV, gaming, streaming and internet access, uploading and downloading. The lighting throughout is magnificent with low energy tape light setting the scene in every room. Lighting under sinks, under toilets, wardrobes, providing a warm glow without directly seeing the source. Insulated walls, ply lined and boarded, then skimmed in line with some of the strictest regulations in the world. Everything has been taken into consideration whilst redesigning and constructing this world class luxury apartment.

The water pipes are all new ensuring great water pressure in all bathrooms with an oversized cylinder delivering continuous hot water. There is also a water tap on the terrace for ease of washing down and for

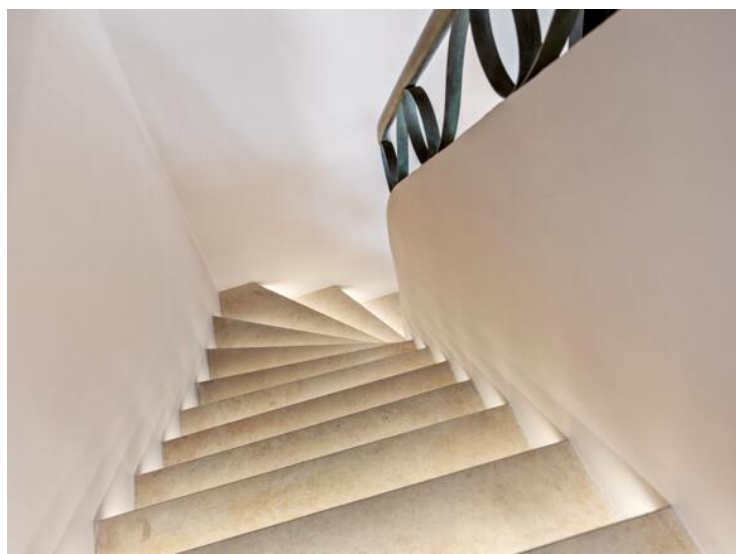

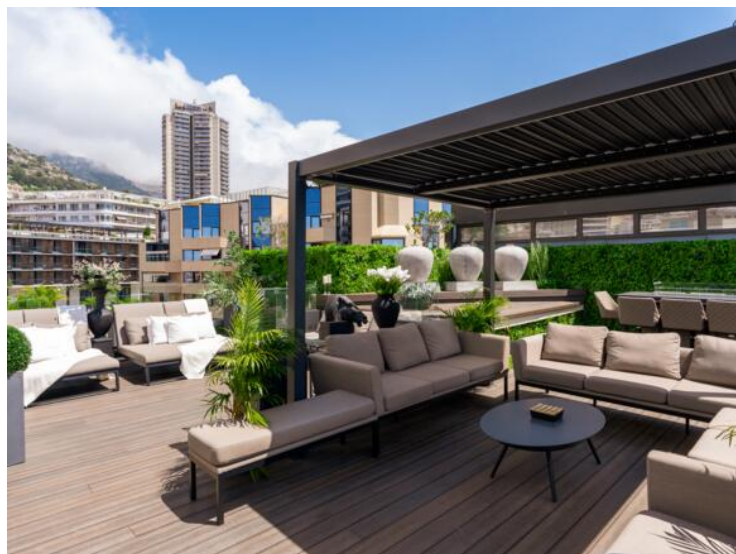

watering the plants. The outside deck and living wall can be jet washed for cleanliness. The windows have been fitted with double glazed thermal and acoustic friendly laminated glass designed and manufactured in the UK. Handles designed by award winning designer Philip Potts.

This apartment is the first to be delivered to Monaco by a high-end international developer Guy Phoenix and his precision team of master craftsmen.
